PROFESSIONAL SUMMARY

B.Tech Computer Science (AIML) student seeking a Software Developer / SDE role to apply C++, Data Structures and Algorithms, OOP, and MERN stack development skills. Interested in building scalable web applications, solving programming problems, and learning modern software technologies.

EDUCATION

United College Of Engineering and Research, Prayagraj	2023 – 2027
B.Tech, Computer Science and Engineering (AIML)	7.78 CGPA
Ewing Christian Public School	2022
Class XII, CBSE	73.66 %
Ewing Christian Public School	2020
Class X, CBSE	80.33 %

INTERNSHIP EXPERIENCE

IBM Project-Based Experiential Learning (PBEL) – Summer Training

- Developed a conversational book recommendation chatbot using IBM Watson Assistant and NLP concepts.
- Configured user-intent based conversation flows to recommend books using genre, mood, length, and popular-author preferences.
- Tested chatbot responses for different user queries and user preferences while working with conversational AI concepts.

PROJECTS

MERN Todo Application

Technologies: MongoDB, Express.js, React.js, Node.js, REST API, JWT, Netlify, Render

- Developed a full-stack Todo application using the MERN stack with user authentication and protected routes.
- Implemented CRUD operations for creating, updating, completing, and deleting tasks through RESTful APIs.
- Used MongoDB for persistent task and user data and JWT-based authentication for secure API access.
- Deployed the web application using Netlify and Render.

MERN Expense Tracker

Technologies: MongoDB, Express.js, React.js, Node.js, REST API, JWT, Netlify, Render

- Built a full-stack expense tracking application with user authentication, secure REST APIs, and CRUD operations.
- Designed backend API endpoints for expense management and connected the application to MongoDB for persistent storage.
- Implemented JWT-based authentication and authorization to protect user-specific expense data.
- Deployed the application using Netlify and Render.

TECHNICAL SKILLS

Programming	: C++, JavaScript, HTML, CSS
Core CS	: Data Structures and Algorithms, Object-Oriented Programming, DBMS
Web Development	: React.js, Node.js, Express.js, MERN Stack, REST APIs
Database	: MongoDB
AI / NLP	: IBM Watson Assistant, NLP Fundamentals
Deployment & Tools	: Netlify, Render, Git, GitHub

CERTIFICATIONS

- C with HTML – College Summer Training
- GUVI – Basic Python Programming
